

Rachel Levine

God's physical laws require all the individuals shown on this page who have "transgender imbalance" (the three who were born male have transgender imbalance) to be in either a male or transgender body, not a female body. Transgender bodies are bodies that don't exist naturally in nature.

Caitlyn Jenner

## Who defines a "female athlete" for non-Christians?

Since Jesus doesn't define female athletes for non-Christians, the answer is whoever writes the rules for sports competitions defines a female athlete. Rules can define that a "female athlete" must be in a female body, or rules can define that a "female athlete" can also be in a male or transgender body. If you are a Christian, then please take the following actions.

1. Help spread God's truth about transgender imbalance and transgender bodies.
2. Learn how to help individuals with transgender imbalance who seek our assistance by visiting the "Rethinking our Approach" web page on the Facts4christ.com website.
3. Support passage of the "Reducing Transgender Imbalance Act."
4. Share a copy of this handout with others.
